## EXPERIMENTS IN MASS APPEAL

### Toys

Here and now
I'm a waterfall
Fall through me
I'll emulate your tears

See me now
I'm a superstar
Still shining
I'll burn you when you're near

Ego come and ego go
The eyes say I, the head say no
Reason ebb and reason flow
Away again

Step right up and take the ride
East of easy
Watch as I go down now, around now
Sell your stock in Jealouscide
Take the shock of all my future crimes now,
Wrap you up, the toys are good to go

Love me now
I'm a looking glass
Convector
I'll amplify your fears

Fear me now
I'm an accident
A secret
I'll bother you for years

It's dog eat God in Dog we trust
The steely seas are turned to rust
Carpet hides the guilty dust
Away again

Step right up and take the ride
East of easy
Watch as I go down now, around now
Sell your stock in Jealouscide
Take the shock of all my future crimes now,
Wrap you up and never let you go

Step right up and take the ride
East of easy

Watch me go...
