## EXPERIMENTS IN MASS APPEAL

### Pocket Sun

Feels like over
Feels like over

I've got this window in my wall
When she lights up I see it all
The now and then, the yet to be
So I get out there and I run free

Lost
In time
Life line
You're all I want
This time
Rewind
All come undone
My pocket sun

Feels like over
Feels like over

I went to Rome and watched it burn
Once round the world with Mister Verne
I've fallen out my family tree
Now my great grand daddy is me

Lost
In time
Life line
You're all I want
This time
Rewind
All come undone
My pocket sun

### Saline

If I
Say why
Will you cry
To please me?

Tell me lies
Fail to try
Say goodbye
It's easy

Eyes cry
Tears dry
Tongues tie
Release me

Blue sky
Mind's eye
Do or die
Appease me

Fine chilling mime
And I don't know if I can believe in all the lies
Calcify
And I don't know if I can survive the feeling
Losing all that's mine

Amputee
Cut from me
Setting free
Deceiving

Leaving be
Lost at sea
Absentee
You're grieving

Fine chilling mime
And I don't know if I can believe in all the lies
Crucify
And I don't know if I can survive the feeling
Losing all that's mine

All, hold the wall, shallow call, doubters all,
face the wall
Lovers fall, face the wall, losers all

I won't be the good for nothing
I won't be the same old feeling
I won't be the one you turn to
I won't be the phase you go through
